

Alka Shower

The Alka-Shower filter removes chlorine from your water. Once in contact with water the chlorine is converted to soluble chloride. Its installation is done in minutes and requires no special tools or professional help. With Alka-Shower your skin will look and feel healthier and suppler.

Features:

- Converts chlorine into chloride rendering it harmless.
- Quartz crystal filters and energizes your water.
- Makes hair softer and more manageable.
- Great for chlorine sensitive skin.
